OBJECTIVE

Computer Science postgraduate student with a strong foundation in programming, data structures, algorithms, and software development. Experienced in developing AI and ML projects, with hands-on skills in Python, computer vision, and machine learning. Strong problem-solving abilities with an interest in AI/ML and software development.

EDUCATION

M.Sc. in Computer Science , Mahidol University, Thailand	2026–present
B.Tech in Computer Science , JNTUH University College of Engineering Sultanpur	2021–2025
CGPA: 7.34/10	
Intermediate , TSWRCOE, Karimnagar	2019–2021
Percentage: 96.4/100	

EXPERIENCE

Internship — Machine Learning — Remote	Oct 2024 – Dec 2024
IBM SkillsBuild	
Built and deployed an ML model to predict employee salaries with 95% accuracy using Python and Google Colab, while also developing essential soft skills.	

PROJECTS

AI Virtual Mouse	Feb 2025 – Jun 2025
Tech Stack: Python, OpenCV, MediaPipe, PyAutoGUI, Pycaw, SpeechRecognition, Tesseract OCR	
Developed a touch-free virtual mouse controlled via hand gestures and voice commands for cursor movement, clicks, scrolling, volume/brightness control. Integrated OCR for text interaction to enhance accessibility.	
Human Scream Detection and Analysis for Controlling Crime Rate	Nov 2024 – Jan 2025
Tech Stack: Python, MFCC, K-Nearest Neighbors (KNN), Multilayer Perceptron (MLP), Twilio API	
Built a three-phase audio classification system to distinguish screams, shouts, and speech from background noise using MFCC features and machine learning models (KNN, MLP). Achieved 93% accuracy and integrated Twilio API to send real-time emergency alerts to police stations.	

SKILLS

Programming Languages	C, Java, Python, C++, Go (Golang)
Frameworks/Libraries	Spring Boot, NumPy, Pandas, Django, TensorFlow, Scikit-learn, Gin (Go)
Web Technologies	HTML, JavaScript, REST APIs, gRPC, CSS
Databases	MySQL, PostgreSQL, MongoDB, Redis
Cloud	AWS (EC2, S3, Lambda – Basic), Deployment on Cloud
AI/ML	Machine Learning, Generative AI, Computer Vision, Feature Engineering
DevOps / Deployment	Docker, Kubernetes (Basic), CI/CD (GitHub Actions), Model Deployment
System Design	Microservices Architecture, Distributed Systems Basics
Developer Tools	Google Colab, VS Code, GitHub, Postman, Jupyter Notebook
Soft Skills	Communication, Teamwork, Problem-Solving, Adaptability
Academic Coursework	DSA, Machine Learning, DBMS, Software Engineering, Algorithms, Artificial Intelligence, Computer Vision

LANGUAGES

English (Fluent), Hindi (Conversational), Telugu (Native), Thai (Conversational), Italian (Basic), Korean (Basic)
